_RALLYMETER 07 | Extra inApps

(last rev. v8.5 05/2017)

The following inApps are purchased only once, they will be active forever for this and following versions.

PILOT MODE

Allows the connection of other Apple device via Bluetooth and will show accurately to the pilot the information in hands of the co pilot.

Very useful to free the stress of the co pilot and also to navigate in the most exact way by seeing clearly the distance and the road book photos.

Also delay / advance and background color change information.

DETAILED RALLY INFO

Shows in detail all the data entered to be able to check for mistakes.

Allows sending via email to print or keep.

Share all rally data between devices.

Up to 99 individual rallies

ROADBOOK 5 PHOTOS PER STAGE

Lets us take up to 5 photos per stage (limit for free road book photos is 2 per stage by default).

ROADBOOK UNLIMITED

Up to 99 photos per stage (limit for free road book photos is 2 per stage by default).
